## GEOMATICS DAY- JADARA UNIVERSITY 4-12-2022

The President of Jadara University, Prof. Dr. Mohammad Obaidat, sponsored a workshop for surveying and Geomatics on Sunday, April 12, 2022. The event was part of the Erasmus Plus project supported by the European Union and attended by representatives from several universities in Jordan, the Jordanian Engineers Association, and the Erasmus Plus office in Jordan. The President welcomed the participants and praised the role of the Jordanian Engineers Association and universities in promoting engineering graduates. Lectures were presented on a land surveying and future aspirations for Geomatics engineering. At the end of the workshop, certificates and shields were distributed to the participants and supporting companies.

# A new Earth Observation lab at JUST

A new EO lab has been established at the Jordan University of Science and Technology (JUST) including equipment and up-to-date technologies in surveying such as: GNSS, GPS, and photogrammetry.

The lab was established as part of the ERODITE project, which is a Capacity Building in Higher Education project supported by the European Union's Erasmus+ Program.
